EXPERIENCE

LOWE'S COMPANIES INC | ASSOCIATE PRODUCT DESIGNER

Charlotte, NC, 2022 – present

- Lead the design and iteration of key internal systems, improving usability and workflow efficiency across complex, high-volume operational environments.
- Planned and facilitated usability testing, synthesizing research insights into actionable design decisions adopted by product and engineering partners.
- Produced detailed wireframes and interactive prototypes in Figma to communicate design intent, validate solutions, and align cross-functional stakeholders.
- Contributed to and extended internal design systems with an accessibility-first approach, ensuring consistency and scalability across products.
- Designed within WCAG 2.2 AA/AAA standards, balancing accessibility compliance with legacy system constraints and real-world operational needs

NODEDA LLC | PRINCIPAL CONSULTANT

United States, Remote, 2017 – Present

- Founded NodeDa, an independent product design consultancy providing selective design and product strategy support to small businesses and early-stage products.
- Lead end-to-end product design engagements, from discovery and user research through wireframes, prototypes, and delivery-ready design assets.
- Developed and launched an independent iOS application (Cookbook), gaining hands-on experience in product lifecycle ownership, iteration, and user engagement.

MATANUSKA – SUSITNA BOROUGH SCHOOL DISTRICT | WEB DESIGN / UX INTERN

Palmer, AK, Summer 2016

- Supported the design and maintenance of the Matanuska-Susitna Borough School District website, improving usability and content clarity for public-facing users.
- Edited and updated site content to enhance user experience, accessibility, and information accuracy across district pages.
- Provided technical support for website changes and assisted with iParent customer support, gaining hands-on experience with real-world user issues.
